## **REASONS FOR ALLOWANCE**

Claims 22-24 are allowed.

Applicant's amendments overcome the rejections set forth under 35 USC 101 and 35 USC 112 in the previous rejection.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach freight services ordering system combination as recited in independent claim 22. The FedEx system (as taught by the Business Wire article and the FedEx web site) in conjunction with Viking Freight and De La Motte teach all aspects of the claim except sequentially displaying a plurality of accessorial services and requiring the user to address each of said accessorial services offered to accept or decline each of said accessorial services before completing said freight ordering services, thereby providing information about accepted or declined accessorial information within the freight shipment process to provide an accurate quote. The FedEx system teaches entering accessorial services information (see page 4), but does not in any way teach sequentially displaying the accessorial information in order to require the user to accept or decline each of the services. The claim specifically positively recites that this step provides information about accepted or declined accessorial information within the freight shipment process to provide an accurate quote. It would not have been obvious to one of ordinary skill in the art to arrive at this feature of applicant's invention in view of the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Marc E. Norman whose telephone number is 571-272-4812. The examiner can normally be reached on Mon.-Fri., 8:30-5:00.
